

IN THE CLAIMS

Please cancel claims 4 and 10-20. Please amend the remaining claims as set forth below:

1. (Currently Amended) A protective garment, said garment comprising:
a body having a front portion and a back portion, said front and back portions defining sleeve openings;

sleeves attached to said sleeve openings along a generally continuous sleeve seam, said sleeves comprising an upper arm section and cuffs at an end thereof, said upper arm section comprising a circumference sized so as to be loose fitting on an intended wearer;

said sleeves further comprising a form-fitting section defined below said upper arm section, said form-fitting section comprising a reduced circumference so as to form fit to a wearer's forearm, said upper arm section and said form-fitting section formed from a common continuous material with a distinct angled transition zone between said upper arm section and said form-fitting section such that said form-fitting section fits snugly against the intended wearer's forearm from said transition zone to said cuff;
and

a skin wellness agent deposited on an inner circumferential surface of said form-fitting section, said skin wellness agent being transferred to the wearer's skin through contact with said form-fitting section.

2. (Original) The protective garment as in claim 1, wherein said skin wellness agent is deposited as a generally uniform coating on said inner circumferential surface of said form-fitting section.

3. (Original) The protective garment as in claim 1, wherein said skin wellness agent is deposited in discrete locations on said inner circumferential surface of said form-fitting section.

4. **Cancelled**

5. (Original) The protective garment as in claim 1, wherein said sleeves are formed from folded blank members with a single seam along said folded blank member.

6. (Currently Amended) The protective garment as in claim 1, wherein said sleeves are formed from folded blank members with two seams along said form-fitting section, and a single seam along said upper arm section.

7. (Original) The protective garment as in claim 1, wherein said skin wellness agent is selected from one or any combination of the group of agents consisting of a lotion formulation, an emollient, a skin protectant, and a wax.

8. (Original) The protective garment as in claim 1, wherein said skin wellness agent is applied to said sleeves below said upper arm section and including said cuffs.

9. (Currently Amended) The protective garment as in claim 1, wherein at least said form-fitting section of said sleeves ~~is formed from~~ comprises an elastomeric material.

Claims 10 through 20: **Cancelled**
